

Workstations

Soldering, inspecting, edge trimming, taping and junction box assembling

- Inline or offline variants
- Lifting out at work level
- Free manual turning on turntable for free access
- Locking positions at the preferred transfer points
- Roller tracks for easy withdrawal
- Mirror and below-table lighting
- Easily accessible storage boards
- Integrated measuring equipment

Description:

Inline or offline workstations for bussing, bus fishing, soldering, inspecting, edge trimming, taping, junction box assembling etc. are adapted to your requirements and can be integrated into the line's conveying technology.

A variety of ergonomically designed accessories like pane support for junction box pressing, liftable roller tracks for easy withdrawal and re-feeding of laminates, preferred locking positions at turn tables, alignment tools, storage boards etc. support the production process, facilitate ensuring quality and enable the operator to concentrate on the job at hand.

Technical data:

- Module sizes 48, 60, 72 cells
- Module orientation LSL, SSL
- Work level adjustable up to 1,250 mm

Options/extensions:

- More module sizes
- Customized workstation design
- Suction cup in turntable
